Normal Operations

#### **Cal OES State Operations Center**

- Cal OES State Operations Center (SOC) is at Normal Operations and will reactivate to Level 3 on 08/20/18.

#### **Emergency Management Assistance Compact Resources in California**

The Emergency Management Assistance Compact (EMAC) is the Nation's mutual-aid system that provides a formal structure where all 50 States and 4 Territories have the ability to share resources across State boundaries. The Cal OES EMAC Coordinator in coordination with Cal OES Fire Branch are working together to request and coordinate needed resources via the EMAC Compact.

- The following states have EMAC resources in California:
  - Montana: 5 engines
  - Washington: 5 engines
  - Texas: 25 engines
  - Arizona: 1 Type 1 Helicopter
  - Oregon: 1 Type 1 Helicopter

#### **Cal OES INLAND REGION**

##### **Water Supply Service Disruption, City of Stratford, Kings County**

On 08/12/18 at 1600 hours, the California State Warning Center (CSWC) was notified by the Cal OES Inland Duty Officer that the wells servicing the community water system in Stratford, Kings County, have failed and the community has been without water since the morning of 08/12/18.

- Cause of failure was a disruption in power and a hole in the casing.
- Environmental Health, the Medical Health Operational Area Coordinator, Fire, and OEM have all been notified.
- Planned duration is likely until 08/24/18.
- Repairs continue on schedule. Bacteriological test result came back negative for system which is currently running on Well #6.
- On 08/17/18 the "Do Not Drink Order" was replaced with a "Boil Water Order" notice
- Fire flows in the areas are limited.
- Adequate drinking water supplies and volunteers are available to distribute to the community this weekend from 0900 - 1600 hours.

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

Above average temperatures today will ease down to more average for the rest of the week as low pressure slides into northern California. Typical afternoon and evening breezes are expected for the next few days. Increased chance of thunderstorms are possible for the next several days over the Cascades and to the east, however as the weather transitions to cooler temperatures, clearer skies will be possible during the second half of the week. Areas of smoke and haze will continue, especially near wildfires, impacting the air quality. Dry weather will continue through the week except for the few thunderstorms that will be possible.

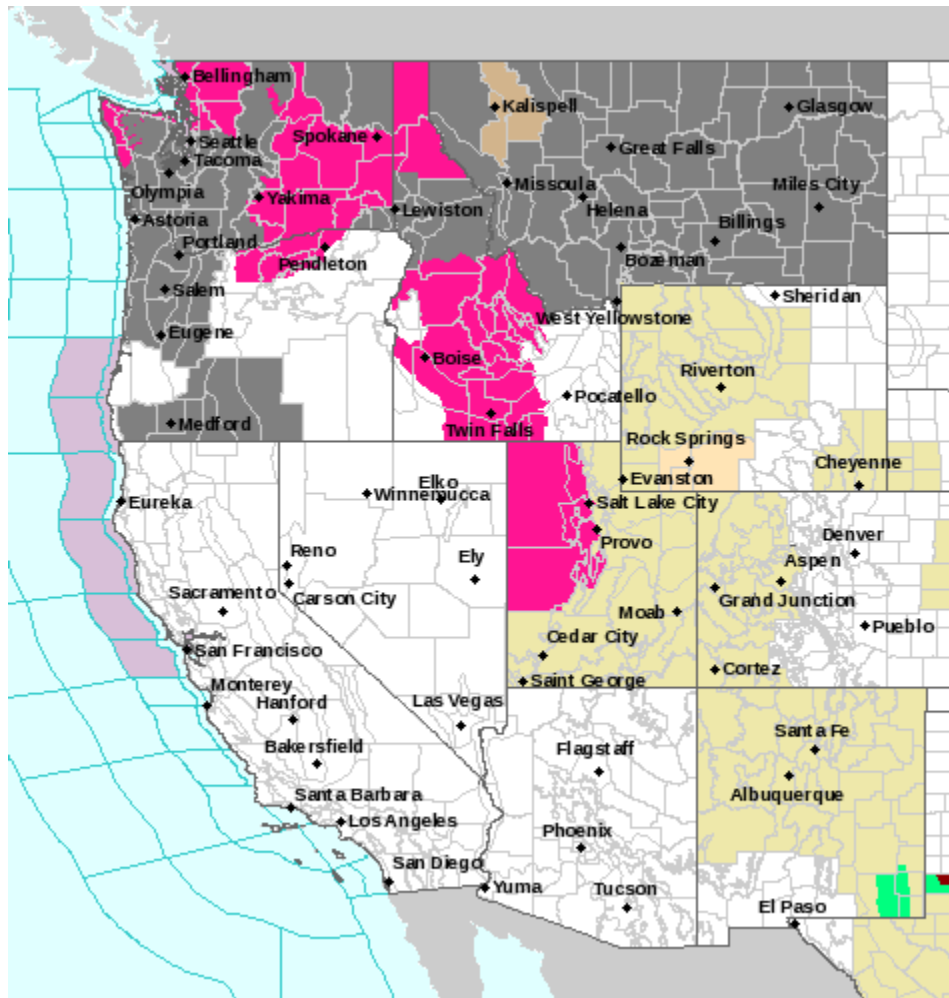

## **SOUTHERN CALIFORNIA**

Southwestern California will be on the western edge of a more substantial influx of monsoonal moisture on Tuesday. There will be a slight chance of thunderstorms this afternoon and early evening and again Tuesday afternoon, mainly along the desert slopes of the mountains of Riverside and San Diego Counties. Gusty winds will be blowing of southwest to west in the afternoon and evening for the mountains and deserts for the latter half of the week. Continued warm temperatures through the week while the humidity level lessens but remains above normal into next weekend.
